

2700

Applied places: apartment Hotel college

can choose colour:

Coffee  
cooper

Rose  
Gold

Unlocking method:

# Lock Appearance :

Sensor area

Hidden mechanical key hole

Front lock body

Battery cover  
4 AA alkaline batteries

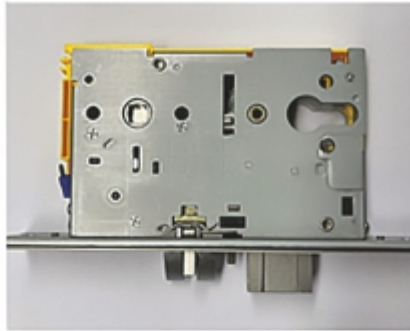

Turn handle downwards  
to unlock

Turn handle upwards to  
extend deadbolt  
and lock inside  
**Remove knob**

Back lock body

# Features:

BB mortise dedicated to network lock

Card sensing area

Pure black panel design

Hidden mechanical key hole

- Double plane design style, modern and luxury.
- 3D engraving machine processing.
- PVD coating technology adopted, improve corrosion protection capability and service life.
- Imported electronic components for PCB, fully automatic SMT process, stable and reliable quality.
- Remove back knob, turn back handle downwards to unlock or upwards to extend deadbolt.
- Printed with illustrating picture and tips of how to use correctly.
- BB sensing mortise adopted, very convenient to replace directly.
- Set all levels of privilege through software, store large capacity of unlocking records.
- Fit for door thickness: 38-71mm.

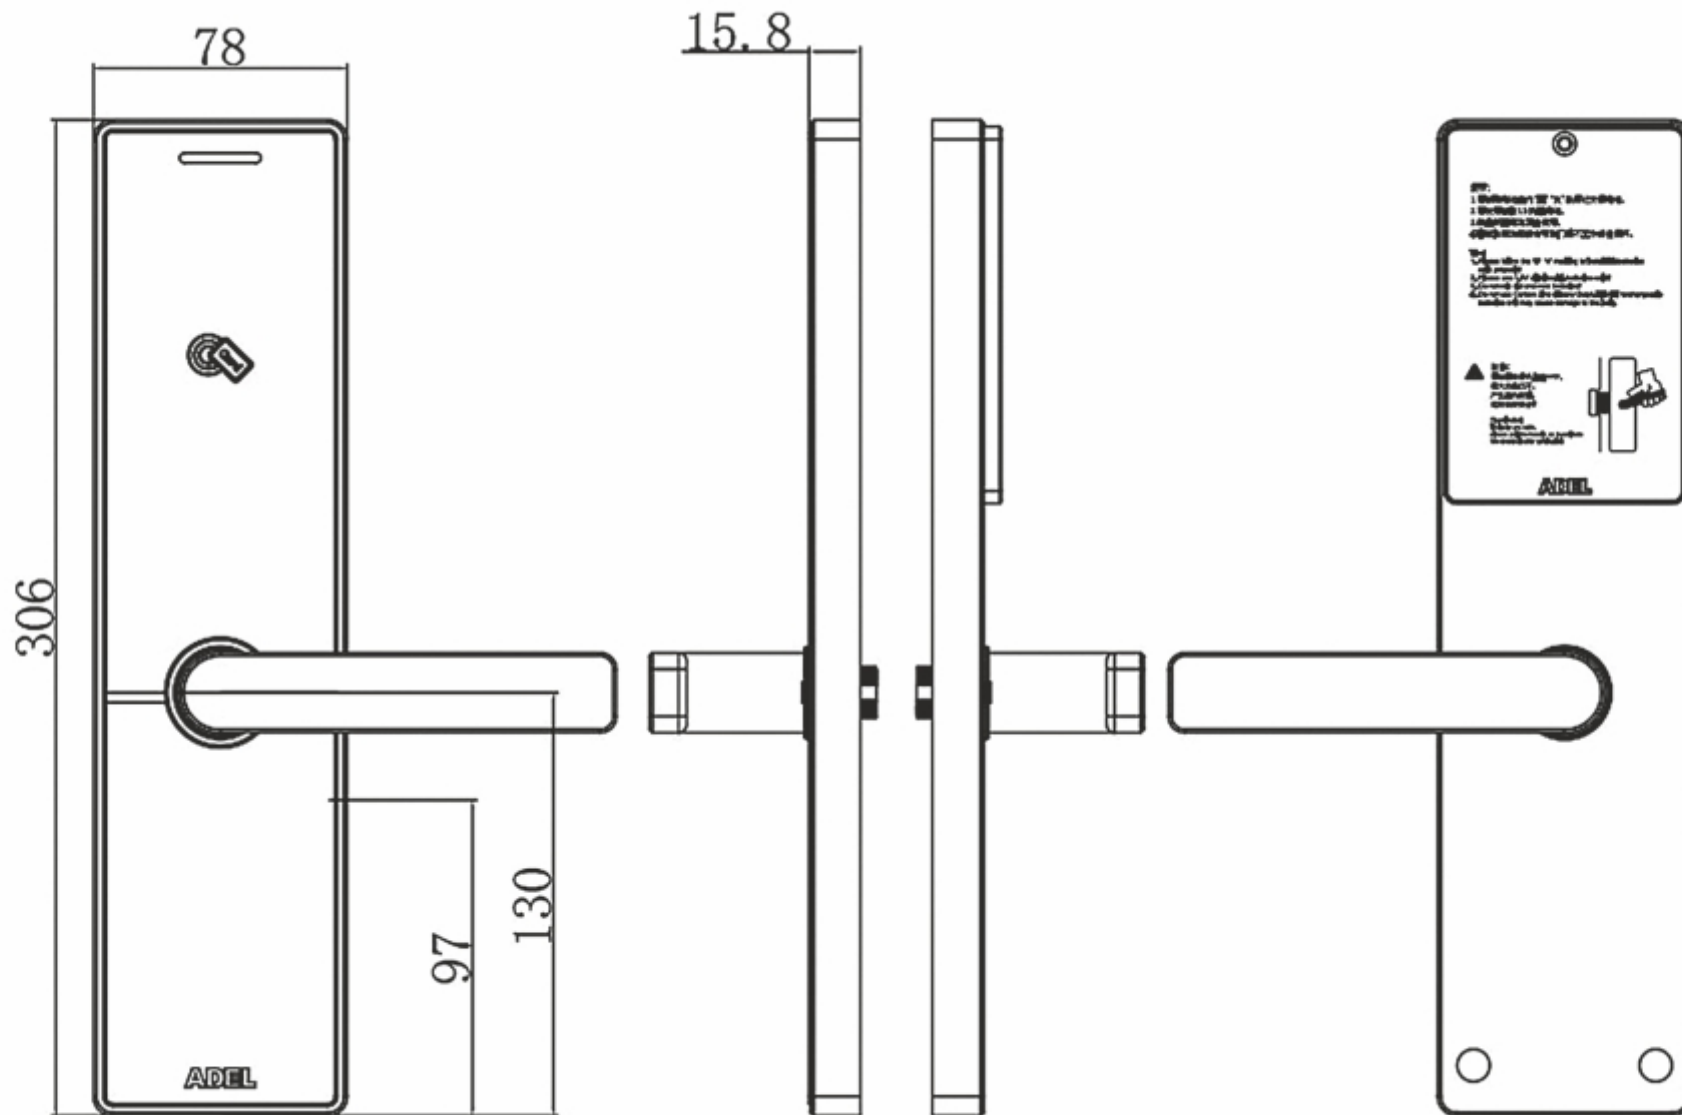

## Available lock finish and dimension drawing:

Copper brown finish

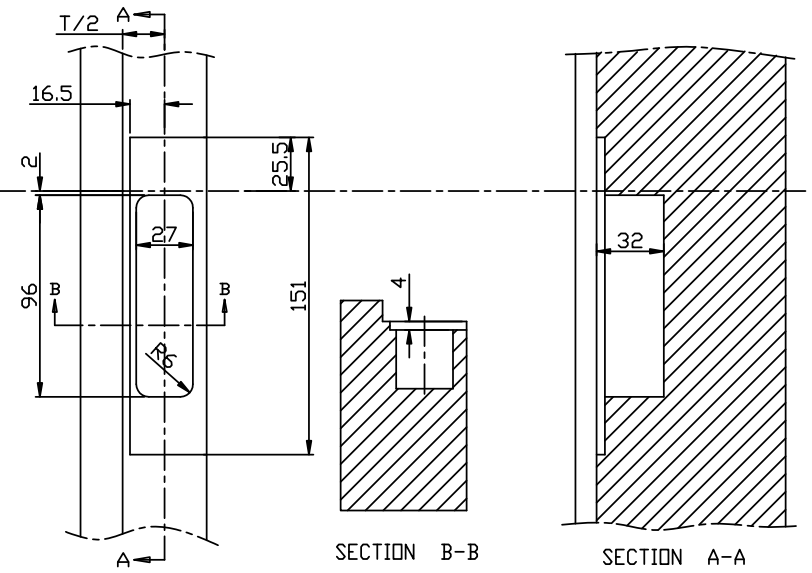

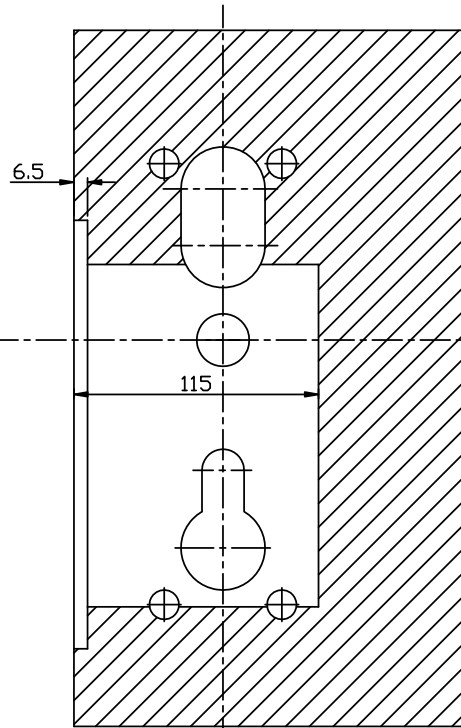

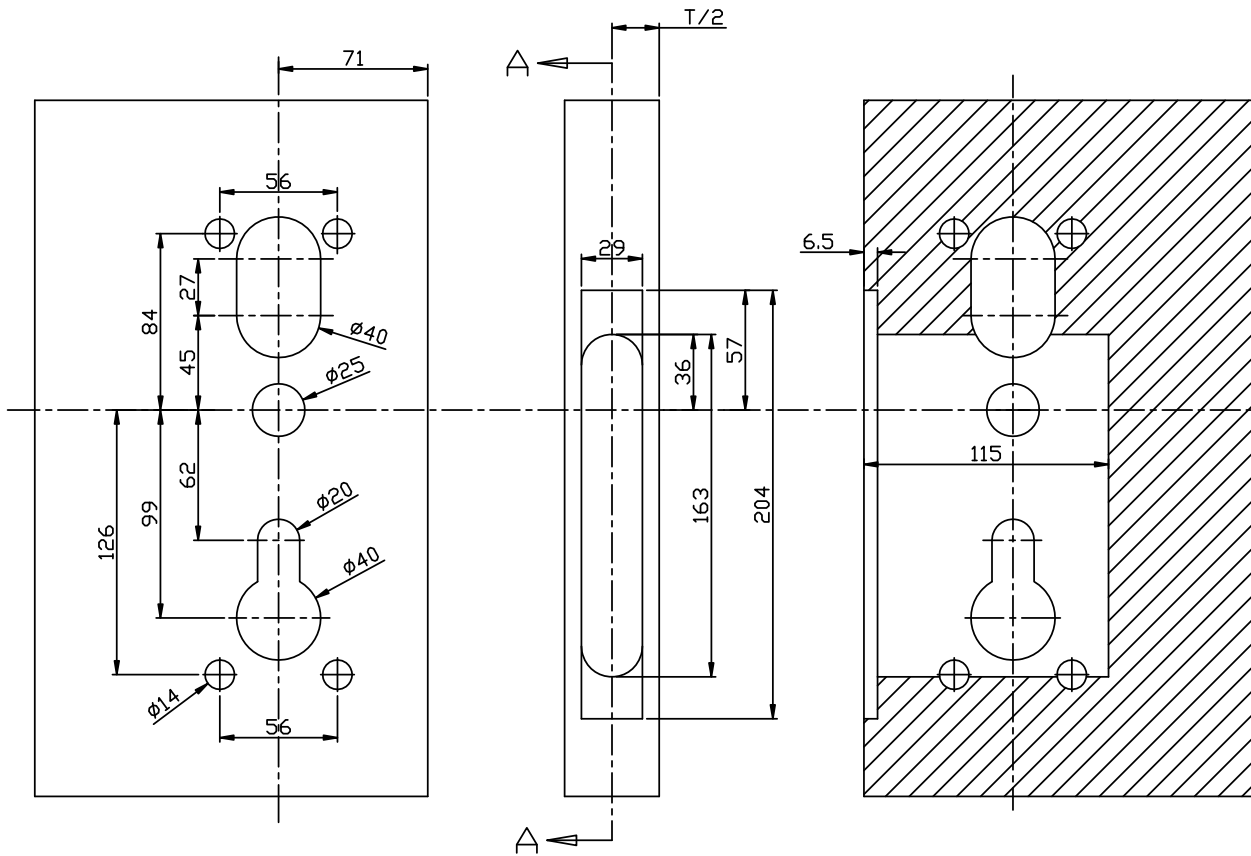

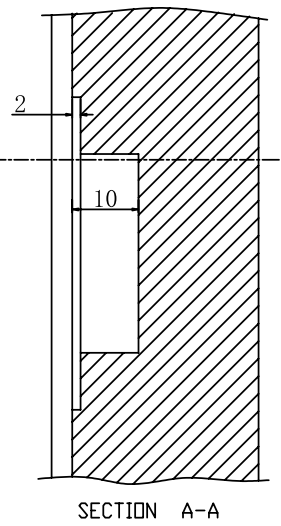

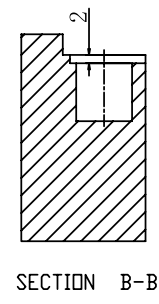

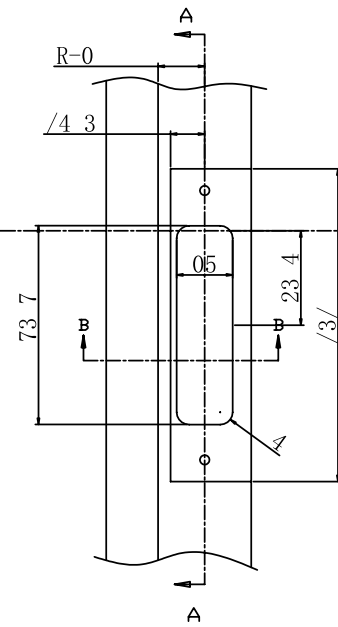

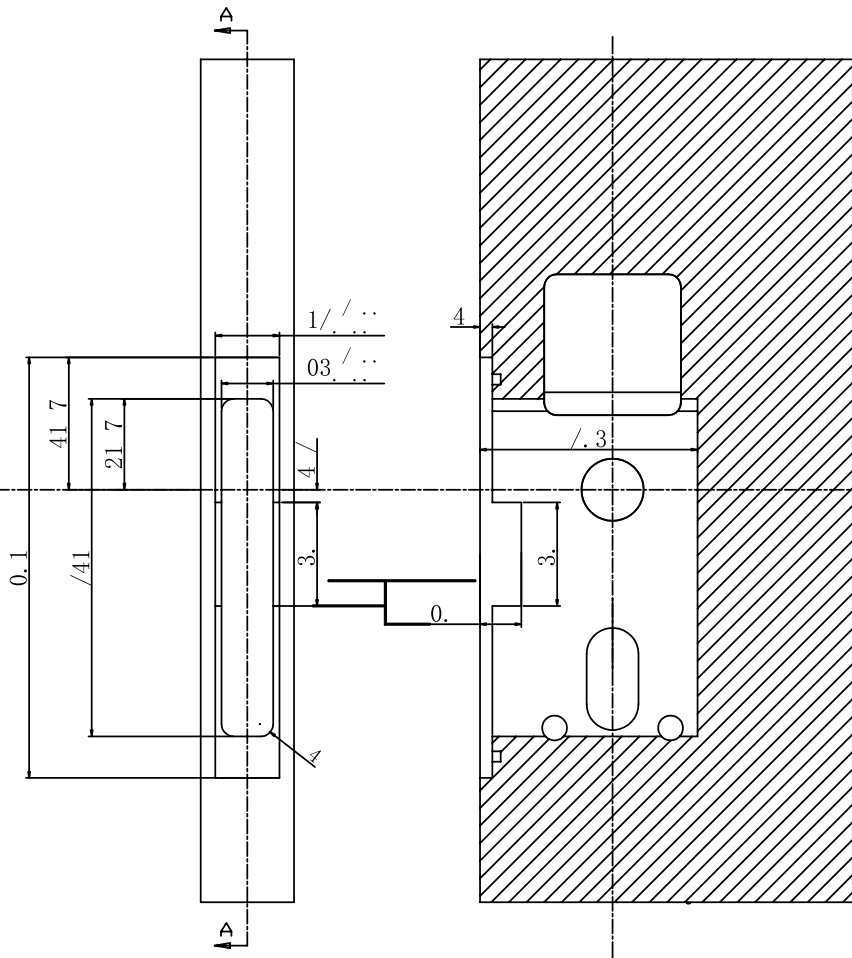

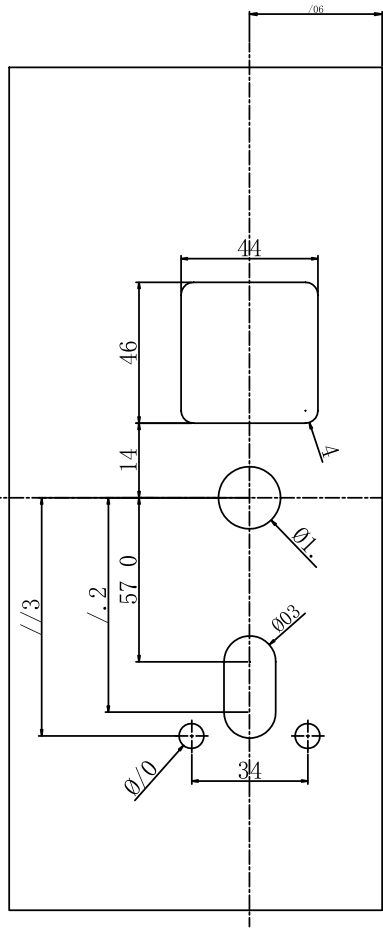

Matt black finish

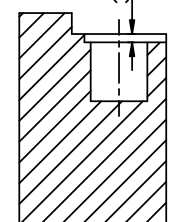

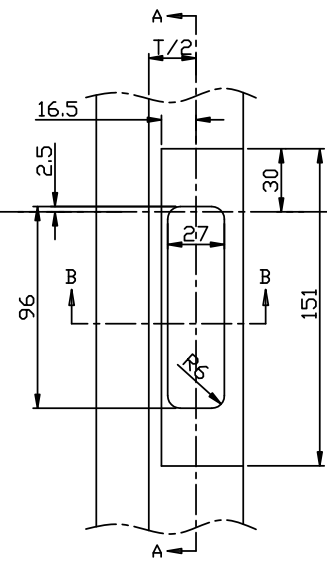

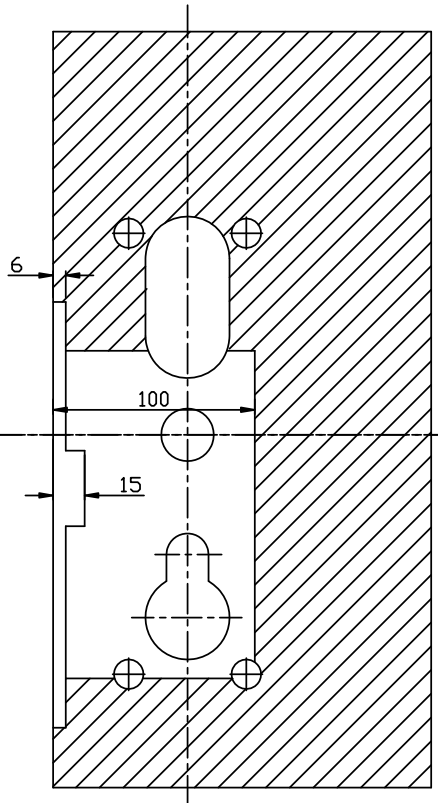

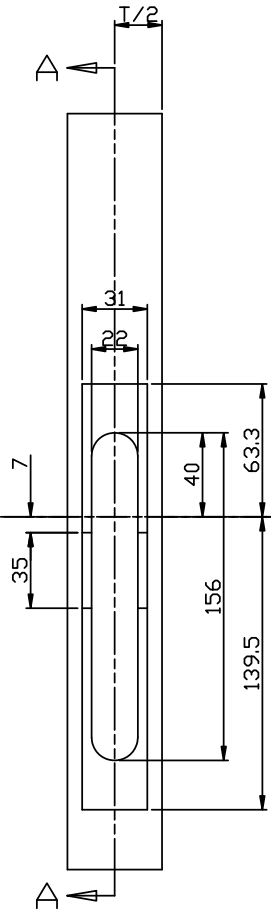

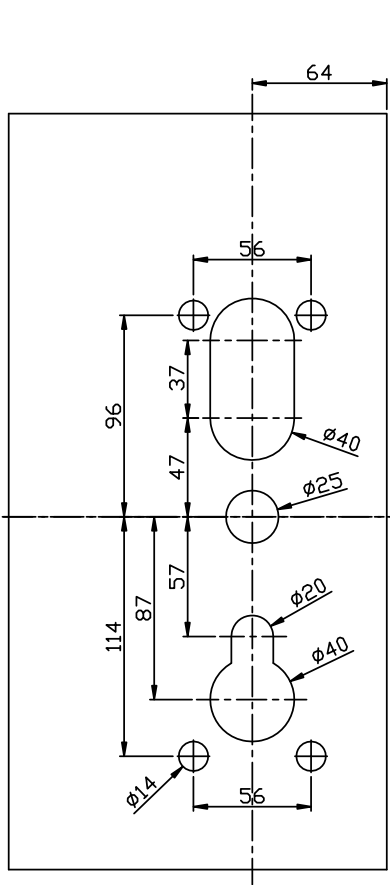

# Technical parameters :

Basic parameters	<p><b>Working voltage:</b> DC 6V (4 AA alkaline batteries)</p> <p><b>Working temperature:</b> -15°C~50°C</p> <p><b>Working humidity:</b> 45-85%RH</p> <p><b>Static power consumption:</b> &lt;50uA</p> <p><b>Dynamic power consumption:</b> &lt;200mA</p> <p><b>Service life of batteries:</b> 12-18 months of using based on 4 AA alkaline batteries (about 15000 times of unlocking)</p> <p><b>Low voltage alarm:</b> less than 4.5V, there will be beep sound heard when unlocking and it still supports about 100 times of unlocking</p> <p><b>Unlocking records:</b> latest 828 records reserved, and there is also unlocking record for mechanical key Mechanical key for emergency use</p> <p><b>Fit for door thickness:</b> 38-71mm</p>
